The following is an examiner's statement of reasons for allowance:

Although the terminal disclaimer filed 2/23/05 is improper and has not been entered, (the patent number being disclaimed is incorrect) the application is in condition for allowance because all of the claims subject to the double patenting rejection have been cancelled. Therefore the application has been passed to issue.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In claim 5, line 5, "starching" has been replaced with --stretching-- to correct an obvious typo.

In the Abstract, the text beginning with "The" (first occurrence) in line 10 and ending with "slippage." In the last line has been deleted to keep the length of the Abstract at 150 words or less as required.

On page 1 of the specification, line 5, --Pat. No. 6,752,731-- has been inserted after "2000".

On page 1 of the specification, line 6, --,abandoned-- has been inserted after "1998" and -Pat. No. 5,839,983-- has been inserted after "1995".

Art Unit: 3711

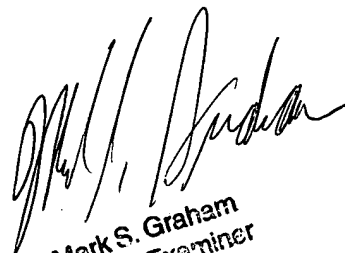

On page 1 of the specification, line 7, --abandoned,-- has been inserted after "1994".

On page 1 of the specification, line 8, --,abandoned-- has been inserted after "1993".

The above changes to the specification have been made to update the status of the parent applications.
